ALLOWANCE

Drawings

1. The objection to the drawings is withdrawn due to Applicant's amendment of 8 October 2004.

Specification

2. The objection to the specification is withdrawn due to Applicant's amendment of 8 October 2004.

Claim Rejections - 35 USC § 112

3. The rejections under 35 USC 112 are withdrawn due to Applicant's amendment of 8 October 2004.

Allowable Subject Matter

4. Claims 1-15 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record neither anticipates nor renders obvious a machine tool as claimed in claim 1, specifically wherein guides defining a path between regions as claimed has two workpiece carriers displaceable along said guides and each formed as a respective cross slide with a respective automatically actuatable workpiece holder as claimed.

The closest prior art of record is US Pat. No. 6,102,838 (Assie) as is discussed in detail in the previous office action.

Assie teaches a machine tool with two workpiece grippers 311 and 312 for carrying a workpiece on a carriage 310.

Art Unit: 3722

Assie does not teach the two workpiece carriers displaceable along the guides and each formed as a respective cross slide with a respective automatically actuatable workpiece holder as claimed.

Therefore Assie does not anticipate the claimed invention of independent claim 1.

Furthermore, there is no prior art that would render obvious the claimed invention, either alone or in combination with Assie, and no motivation found to modify Assie to obtain the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
